quality education.*

4-Year-Old Kindergarten

Starting with the 2005-2006 school year, the School District of Hilbert began to offer families a new option in educational services.

-  The School District of Hilbert will use the Wisconsin Model Early Learning Standards in creating a developmentally appropriate environment and learning setting.
-  A curriculum that provides a strong literacy component (listening, speaking, thinking, phonemic awareness, emergent writing) will be based upon established standards and developmentally appropriate, research-based practice.
-  A balance of all learning areas (literacy, fine motor, gross motor, math, science, social studies, art, music, social, and self-care) offered in an integrated manner, and reflecting the holistic nature of early learning will be used.

Program Information

-  The 4K program is for everyone, regardless of ability or income. Students must be 4 years old as of September 1st of the school year. Four-Year Old Kindergarten is not intended to be an alternative to Five-Year-Old Kindergarten.
-  The 4K program is staffed by highly qualified personnel, including a full-time teacher assigned to the classroom.
-  Beginning in 2021/22, the 4K program went to four (4) full days Monday through Thursday. One day each week will be used for family outreach and planning.
-  Ideal enrollment will be 15-16 students and maximum class enrollment will be around 20 per session.
-  Busing will be available for students in 4K.

Family Assistance

As you know, parental involvement is extremely important in the education of a young child. You are your child's first teacher, and will continue in that role all of your life. There will be many ways for you to be involved in your child's classroom. Below are some of the ways that may be used to strengthen your child's education.

-  Parent Meetings
-  Conferences
-  Parent Volunteers in the Classroom
-  Family Events
