**Annual Meeting
July 26, 2021**

**“Invest, Interact, Inspire...
Every Child, Every Day!”**

The Annual Meeting

The annual school district meeting plays an important role in the governance of 372 of Wisconsin's 421 school districts. Electors in these districts, which are classified as either common school districts or union high school districts, have special powers reserved to them as a body at the annual meeting. The state statutes set forth the basic requirements for holding the annual meeting and outline the powers of the electors at the annual meeting.

As school officials are aware, however there is more to the annual meeting than the statutory requirements. Often times described as real grassroots democracy in action, the annual meeting provides district residents with an opportunity to focus their attention and comments on the operation of the school district. It is also a good time for the school board and administrative staff to help the community focus on the achievements, needs and future of the district.

State Law requires that every common and union high school district hold an annual meeting. Unless changed at an annual meeting, the common school district must hold its meeting at 8:00, on the fourth Monday in July. The location for that meeting must be in a schoolhouse in the district, or the nearest available place as designated by the school board.

Electors at an annual meeting may determine or may authorize the school board to hold subsequent annual meetings on a date and hour different from that specified in the statute. No annual meeting may be held before May 15th or after October 31st.

A notice of the meeting – stating its time and date - must be published twice by the district clerk. Also, where the school district clerk has received a proper petition requesting the annual meeting to consider a special subject or item of business, a statement of the subject or item of business must be incorporated in the notice of the annual meeting (s. 120.09). The last publication of such notice must not be more than eight days and not less than one day before the annual meeting. If it is anticipated that more than one-half of the school board members of the school board will attend the annual meeting, a notice of that anticipated attendance should be given in order to comply with the open meeting law.

The school board is charged by statute with the care, control and management of the property and affairs of the school district are subject, however to the authority vested in the annual school meeting. The powers vested in the school meeting are, for the most part, set forth in s. 120.10 of the statutes.

Electors at the annual meeting may:

- Set the annual salaries for the board members, or an amount for each meeting attended;
- Authorize the payment of actual and necessary expenses for board members when traveling in the performance of their duties;
- Designate sites for school buildings;
- Authorize the board to acquire real estate by purchase or condemnation;
- Vote a tax for the operation of the schools, to create a capital expansion fund, and for other purposes, enumerated in s. 120.10 (with the understanding that the Board

of Education has the final power under statutes to set the tax levy at an amount needed to operate the district);

- Direct and provide for the prosecution or defense of any legal action or proceedings in which the school district is interested;
- Direct the school board to furnish school lunches to district students and appropriate funds for that purpose;
- Authorize the school board to furnish textbooks to students under conditions prescribed by the meeting or school board;
- Authorize the purchase of vehicles or finance contracts for the use and services of transportation vehicles; and
- Adjourn the annual meeting from time to time to establish a different date and time for a subsequent annual meeting.

Several other statutes also give power and responsibilities to the annual meeting. Changes in the number of school board members, the plan of apportionment and a requirement that board members be elected to numbered seats are authorized if approved by the annual meeting [see s. 120.02]. The annual meeting may require (or rescind the requirement of) nomination papers for school board elections where candidates are not otherwise required to file nomination papers by law [see s. 120.06(6)(a)]. Accident insurance for students can be paid for with district funds, if authorized at the annual meeting [see s. 120.13(2)]. A school board is allowed to lease property to any person if approved at an annual meeting [see s. 120.13(25)]. Annual meeting authority regarding transportation of public or private students is set out in s. 121.54.

Tax Levy – What It Means

The school district tax levy is made up of several components. These include:

- Amount of operational dollars needed (general tax levy)
- Amount of debt service tax dollars needed (debt service levy)
- Equalized value of property in the school district
- Mill rate

The **tax levy** (operational dollars) is the balancing figure in school district budgets. After all anticipated revenues and expenditures are reviewed and entered into the proper accounts, the tax levy is added to the revenue portion of the budget so anticipated revenues and expenditures are equal. This results in a balanced budget.

Equalized valuation is the fair market value of all properties within a school district as determined by the Wisconsin Department of Revenue. The Wisconsin Department of Revenue uses property sales information to determine a municipality's equalized "fair market" valuation. This information is reported to the school district in October of each year.

The availability of the **equalized valuation** for each municipality, or portion of a municipality located within the school district, allows the district to distribute the tax levy among the municipalities according to the proportion of equalized value each municipality has of the total equalized value in the school district. Each municipal treasurer distributes this levy among the various residents based on the assessed value of property within the municipality.

Equalized value plays a very important role in determining the **mill rate**. For purposes of budget projections, the school district must estimate the equalized values for the 2021-2022 fiscal year. In October, the actual certified equalized value of all municipalities within the school district are reported by the Department of Revenue. The district then calculates the final mill (tax) rate per thousand dollars of equalized valuation.

To calculate the mill rate, the district uses the tax levy adopted by the School Board and divides that amount by the total equalized value of the school district. The mill rate is defined at the rate of one dollar per thousand dollars of equalized valuation. For example, one mill on an \$85,000.00 property would yield \$85.00. Twenty mills would yield $.20 \times \$85,000.00$, or \$1700.00.

The School Board is proposing a total tax levy of \$2,436,813 to fund the 2021-2022 district budget. To determine the rate per thousand, the district divides \$2,436,813 by the estimated equalized value of the district, \$257,746,460*. This produces a projected mill rate of .00945430. Since the district does not receive the official (certified) equalized valuation until October 15, 2021, the mill rate will not be finalized until the last week in October. The School Board is required to make adjustments, if needed, to the levy on or before November 1, 2021.

ANNUAL BUDGET HEARING
JULY 26, 2021
6:00 p.m.

School districts are required to use the uniform fund accounting system prescribed by the Department of Public Instruction (Wisconsin Uniform Financial Accounting Requirements) and to maintain the system using generally accepted accounting principles for government. All financial information provided by school districts and to the Department of Public Instruction must be using this regulatory basis of accounting. (Sec. 115.28(13), Sec. 113.30(1), Sec. 120.18 Wisconsin Statutes)

Fund Accounting

A fund is an independent accounting entity consisting of a self-balancing set of asset accounts, liability accounts, and equity (fund balance) accounts. Funds are established for the laws, regulations, restrictions or limitations.

10 GENERAL FUND

The General Fund is used to account for district financial activities for current operations, except for those which are required to be accounted for in separate funds.

27 SPECIAL EDUCATION

This fund is used to account for special education and related services funded wholly or in part by the state or federal special education aid or charges for services provided to other districts as a result of being a host district for a special education program or cooperative service.

39 REFERENDUM APPROVED DEBT SERVICE

This fund is used to account for transactions that were approved through referendum.

46 LONG TERM CAPITAL IMPROVEMENT TRUST FUND

A school board with an approved long-term capital improvement plan (minimum of 10 years) may establish a "trust" that is funded with a transfer from the general fund. The contribution from Fund 10 to 46 is recorded as the expenditure for shared cost and equalization aid purposes. Future expenditures from Fund 46 are not part of shared costs. A school board is prohibited from removing money deposited into Fund 46 for a period of five years after the fund is created. After the initial five year wait period is over, funds may only be used for the purposes identified in the approved long-term capital improvement plan.

49 OTHER CAPITAL PROJECT FUNDS

This fund is used to account for financial resources involved in the acquisition of capital objects, construction of major capital facilities, or major maintenance projects. A separate checking and/or investment account must be maintained by the district for this fund.

50 FOOD SERVICES FUND

Federal Regulations require that the Food Service Fund be accounted for separately. All revenues and expenditures related to Food Services should be recorded in this fund. Any fund deficit at the end of the year must be eliminated through an operating transfer from the General Fund. Any fund balance must be retained for future use for Food Service.

80 COMMUNITY SERVICE FUND

S. 120.13 and 120.61, Wisconsin Statutes allow a school board to permit use of the district's property for civic purposes.

DISTRICT PHILOSOPHY

The School District of Hilbert recognizes that the youth of the community is one of its greatest assets and represents the future of our democratic society. In addition, the district recognizes that the health and well-being of the local community and society in general depends to a great extent, on the quality of education that is provided to its young people. It is also the belief of the School District of Hilbert that such a quality educational program can best be developed if it is based on the following philosophical premises:

1. That education of the young must develop the entire person and must address the intellectual, emotional, moral, aesthetic, physical, and social needs of a child.
2. That the foundation of all academic success and socioeconomic survival skills are dependent on competencies in the skills of reading, writing, and calculations.
3. That all students, in order to develop into healthy, mature, happy and productive members of society, need to develop a positive self-image.
4. That a system of moral and ethical values among the young is essential to the well-being of the community.
5. That a democratic society cannot prosper unless its citizens actively and intelligently participate in society and government.
6. That learning is an ongoing process that occurs throughout one's life, hence, a person, to live a full, productive life, must develop study and learning habits and skills that can enable one to grow intellectually and experientially throughout one's life.
7. That we live in a rapidly changing world and society that increasingly lacks stability and which creates environments in which some individuals tend to lose their identity and develop feelings of inadequacy and helplessness. Since these social trends tend to limit the fullest development and expression of human potentiality it is important that schools recognize these problems among its students and seek to deal with them.
8. Learning becomes difficult if students are preoccupied and distracted by psychosocial problems, hence, education must attempt to address such mitigating factors to be effective.
9. The education of the young can achieve the greatest success if all elements of the community involved in the education process – students, parents, citizens, staff members, administrator, and Board – work together in harmony and cooperation with the common goal of doing what is in the best interests of the students.
10. That the education of the young is not the sole responsibility of the school district or a small group of people within the community but is the total responsibility of everyone who comes into contact with the young and who have an influence on them. The education of the young is, therefore, a social and moral obligation of all citizens within the school district.
